At A Glance

Hunt Role

General Contractor

Construction Cost

\$11.4 million

Completion

January 1994

Client

City of Phoenix

Architect

Westlake Reed Leskosky

Restoration of the historic Orpheum Theater, originally built in 1929. Renovation included preserving the original Spanish Baroque stone and terra cotta façade. The renovation focused on “adaptive reuse” restoring as much of the visible splendor as possible while retrofitting it as a technically modern theater.
